and modular units

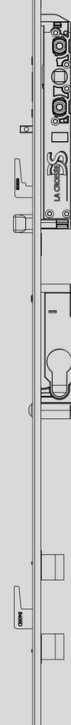

HOOKS SAFE

**SAFE
EXTENSION
+ 300 KG**

Enhanced solution

Opposing hooks
with a load
capacity of 300 kg

Serinox is a multi-point locking system, with 1 to 5 locking points, available in either a one-piece or modular version, using extension bars.

Safe is an extension bar with interlocking hooks, offering a load-bearing capacity of 300 kg.

Suitable for aluminium and PVC profiles.
